FLEXY SERIES

Una enchapadora con prestaciones y acabados de máquina de gama superior y con precios asequibles hasta para la pequeña carpintería - son los puntos esenciales que definen la gama FLEXY de CEHISA.

En esta serie CEHISA ha aplicado su experiencia de más de 50 años de saber hacer en el mundo de la maquinaria para trabajar la madera, combinando dimensiones compactas con prestaciones y acabados de alta gama, ofreciendo una solución a la medida de las pequeñas industrias, donde el espacio y el costo de inversión son puntos importantes a la hora de invertir en maquinaria.

A compact edgebander, yet providing performances and quality of finishing, proper for an industrial machine, at a price, affordable even to a small carpentry shop - these are the essentials of the FLEXY range of CEHISA.

With more than 50 years of experience in the world of the wood working machinery in CEHISA we have the know-how of combining compactness with variety of applications and high quality of finishing, thus offering an accessible solution to the small industries, where space and cost are important issues when deciding on an investment in new equipment.

Flexy è una macchina con prestazioni e finiture di macchine di gamma superiore a prezzi accessibili per l'artigiano e la piccola industria.

Nella Flexy Cehisa ha applicato tutta la sua esperienza di 50 anni per costruire una macchina di piccole dimensioni con possibilità di applicazioni, qualità ed affidabilità raggiungibili solo con macchine di gamma e investimenti superiori.
